First come first served while offer qty lasts...

2 Amazing new options for **MULTI-AIR**

The **MULTI-AIR** is a resounding success with 50 units sold in just a few months, many used for specialist ticket perfining applications.

Now there is even more reason to buy it!

- New software option automated perfect bound layflat production see the sketch nr 1, it explains everything better than I can.

EZ-layflat

Innovation! Quality! Value!

- New software for square back booklet option (see below, it explains everything)

EZ-Square

These new programs obviate the need to use pur glue to get a layflat book and/or the need to buy an expensive machine to squeeze the spine square when you want a square back booklet.

How much will you save?

- A pur binder would cost you 30.000€ +
- A square spine machine would cost you 7000€ +

The cost of the software to do both => intro price only 499€!!!
(usual price 799€ per function)

Please note this software is world patented in concept and application and can't be found elsewhere...

3 The **TRITON** lives!

We launched the Triton years ago but it wasn't ready...
now it is ;-))

1st delivery planned for July 2015
Intro price around 5000€!+ options
(pdf is attached)

We are now taking pre-bookings at the intro price....

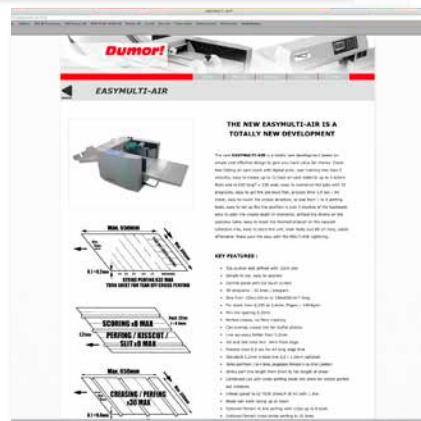

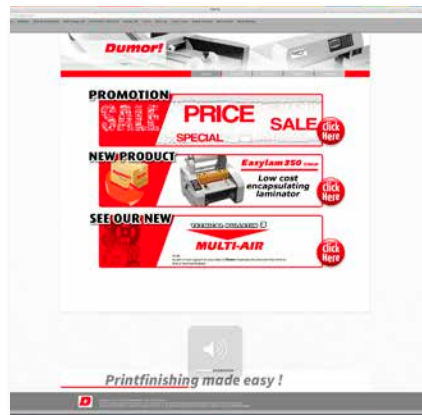

Innovation! Quality! Value!

4 New website

Lucky for us that we have some clever web development colleagues in our office.

The old site is going to dieRIP!

The new site is under development but a preview can be seen here.....

Good hunting
